Community TechAid

Strengthening communities through digital empowerment

Corporate Volunteering:

Make a Real Impact with Your Team

Engage directly with refurbishing tech, helping us get devices to those who need them most.

Along the way, your team will build stronger connections and contribute to a sustainable future, fighting digital poverty and reducing e-waste.

The Problem

11.9M PEOPLE do not have the digital skills needed for everyday life in the UK

250M LAPTOPS are manufactured annually, producing more CO2e than the airline industry

1.9M TONNES of e-waste is produced annually in the UK

Our Solution

1 Donation
We accept laptops, smartphones and tablets.

2 Refurbish
We securely wipe and refurbish devices, bringing them back to life.

3 Partnerships
We collaborate with over 350 organisations, including schools and refugee groups.

4 Training
We host training sessions, providing hands-on training and ongoing support.

5 Recycling
Anything we can't use is broken into materials then recycled back into production.

Our Impact

7000 devices
diverted from landfill

5000 people
connected with a device

10 tonnes
e-waste used or recycled

4000 hours
donated by volunteers

What Will You Be Doing?

Jump into device repair and refurbishment! You'll experience our process from start to finish, whether it's installing operating systems or swapping out hardware like drives and batteries.

No matter your skill level, we'll guide you through every step, making it an exciting, interactive day.

SUPPORTING OUR MISSION

Your contribution helps cover the cost of delivering the day, funding spare parts and staff time, ensuring we can continue providing free tech to our community

£750 full day / £400 half day

DAYS AND LOCATION

Tuesdays or Wednesdays
10am - 4pm
Full day & half day available

336 Brixton Rd, London SW9 7AA

Track Your Impact

You will receive a detailed impact report aligned with your ESG goals, showing how much e-waste was diverted from landfill, the CO_2 emissions saved, and stories from the individuals your efforts have supported.

> *It was a day of discovery - learning about the circular economy to opening up a laptop and deep diving into the repair work TechAid do! It was a fantastic opportunity for team building and I really enjoyed the hands-on learning. It was a great day and felt very valuable to know that devices we worked on will directly support those who are digitally excluded.*
